

CrewBrief Sealed Work Record

Sealed at: 2026-10-19T22:35:00.000Z

Work session

Job	Maple Street Patio Rebuild — Sample
Classification	1099
Started (server)	2026-10-19T13:58:04.000Z
Ended (server)	2026-10-19T22:31:12.000Z
Started (device)	2026-10-19T13:58:01.000Z
Ended (device)	2026-10-19T22:31:09.000Z
Flags	—

Work-site check-ins (1)

Check-in 1

Clock in: 2026-10-19T13:58:04.000Z Clock out: 2026-10-19T22:31:12.000Z Flags: —

Clock-in note: Demo slab + footings pour

Clock-out note: Forms stripped, site cleaned

Breaks and segments (1)

Segments are worker-initiated; time is never deducted automatically. Paid/unpaid follows the classification defaults or the signed contract.

Meal break 2026-10-19T17:00:00.000Z — 2026-10-19T17:30:00.000Z Unpaid Flags: —

GPS snapshots (2)

2026-10-19T13:58:04.000Z (30.2672, -97.7431) ±8m CAPTURED — coordinates recorded, no mock provider detected
Flags: —

2026-10-19T22:31:12.000Z (30.2675, -97.7434) ±11m CAPTURED — coordinates recorded, no mock provider detected
Flags: —

Photo proof (1)

Each photo's SHA-256 fingerprint was recorded at capture; any copy of the photo can be verified against it.

2026-10-19T13:58:30.000Z SHA-256 5bfd2b3fa32c9fd34600acca84eff0cfedfd3fc623fab61b72daa7568f3bb9a Flags: —

Signed documents (1)

independent_contractor_agreement v3 Accepted: 2026-10-19T12:04:44.000Z
Content SHA-256: bd385f904fb07fd88c4f850e56c6b6e4fd314d045c63791e56af1d9b086d0fca

Signed job terms (1)

v1 Accepted: 2026-10-19T12:09:17.000Z
Content SHA-256: d490b1b7cfa2aec88d750320709df23b3fff78c65d6cdfc93a261b532b5d9c8a
Master acceptance ID: 00000000-0000-4000-8000-0000000000f1

Added tasks (0)

Tasks added by the contractor under the same signed pay and terms. The worker acknowledged each task by tap; pay changes are signed separately as a new Job Terms version.

None

Signed amendments (0)

Corrections never edit the sealed record. Each amendment is a separate signed entry alongside the original.

None

Objections (0)

None

Verification

This document is a reproducible rendering of a sealed record. The record's SHA-256 below is committed to CrewBrief's append-only audit chain, whose head at seal time is printed below — keep this copy. An external RFC 3161 timestamp is requested for every seal and delivered separately as an Anchor Certificate once issued. Rendering the same sealed record always produces this exact document, byte for byte.

Sealed record ID	00000000-0000-4000-8000-000000000081
Record SHA-256	04e47c1813375f3bc439ddca9aba51bf280a2966fab7b6aacf87677f197aa29
Audit chain head at seal	f523447b92b9838ec50705b81462e521234db45f93f33bd652f1be0a2df37e26
Sealed at	2026-10-19T22:35:00.000Z

About the ID numbers below: they are internal reference numbers that link each part of this document to the exact database and audit-chain entries behind it. They are not meant to be read — they exist so any entry can be independently located and verified.

Session ID	00000000-0000-4000-8000-0000000000a1
Worker ID	00000000-0000-4000-8000-0000000000a2
Contractor ID	00000000-0000-4000-8000-0000000000a3
Check-in ID 1	00000000-0000-4000-8000-0000000000b1
